Agriculture Education Fair held at the College of Horticulture, Bagalkot on 28<sup>th</sup> December 2023. This event, organized with the aim of fostering knowledge exchange and promoting innovation in agriculture, brought together students, faculty, industry professionals, and experts in the field. 217 higher secondary schools' students and PU College students were participated. The fair was sponsored by Institutional Development Plan - a collaborative project of Indian Council of Agricultural Research (ICAR) and the World Bank. The event was attended by students of nearby schools of Bagalkot. Dr. N K Hegde, Hon'ble Vice Chancellor, UHS Bagalkot, inaugurated the program. Dr. T B Alloli, Registrar, UHS, Bagalkot, Dr. Ravindra Mulgae, Dean – PGS, UHS, Bagalkot and Dr. R. K Mesta, PI, NAHEP IDP, UHS, Bagalkot were the Chief guests of the Agri Education Programme. Dr. Balaji S Kulkarni, Dean, CoH, Bagalkot presented the presidential remark of the program.

**Event Overview:** The Agriculture Education Fair showcased a diverse array of activities, workshops, and field and lab visits around College of Horticulture, Bagalkot that catered to the unique interests and aspirations of our students. From cutting-edge technological displays to hands-on workshops, the fair provided an immersive experience for everyone involved.

**Educational Workshops and Seminars:** Seminars were conducted by renowned professionals and educators in the field. These sessions covered a wide range of topics, including sustainable farming practices and agriculture education, importance and opportunities. The interactive nature of these sessions encouraged active participation and engaged discussions.

**Student Involvement:** The fair actively encouraged student involvement and participation. This not only provided a platform for students to share their work but also inspired others to pursue excellence in their agricultural pursuits.

**Skill Development Programs:** Specialized training programs were designed to enhance the practical skills of our students. These programs focused on various aspects of horticulture, such as crop management, pest control, and post-harvest techniques, equipping our students with valuable hands-on experience.

**Networking Opportunities:** The Agriculture Education Fair facilitated meaningful connections between students and professionals in the agriculture. Networking sessions allowed students to interact with potential mentors and entrepreneurs opening doors for future career opportunities.
