National Webinar
on

Intellectual Property Rights in Agriculture Sector

कृषि क्षेत्र में बौद्धिक संपदा अधिकार

July 17, 2020

Under the Aegis of
World Bank-ICAR Funded National Higher Education Project
Swami Keshwanand Rajasthan Agricultural
University, Bikaner-334006

About the University

Swami Keshwanand Rajasthan Agricultural University is a pioneer University of Rajasthan established in the year 1987 at Bikaner. It caters to the agricultural need of six districts viz. Bikaner, Jaisalmer, Churu, Jhunjhunu, Sriganganagar and Hanumangarh, out of thirty-three districts of Rajasthan. The university is playing a vital role in the development of agriculture in the broad sense and providing trained human resource, carrying out production-oriented research programmes, developing and promoting new technologies in the field of Agriculture, Agribusiness and Home Science.

Academic, research, extension and seed production activities of the University are carried out through a network of three constituent colleges located at Bikaner, two Agricultural Research Stations, located at Bikaner and Sriganganagar and one Agricultural Research Sub-Stations, located at Hanumangarh. Besides, there is National Seed Project unit of ICAR, functional at Bikaner. The extension activities are carried out through seven Krishi Vigyan Kendras and an Agricultural Technology Information Centre located at University Head Quarter, Bikaner.

About NAHEP Project

A World Bank–ICAR funded National Agricultural Higher Education Project (sub-component Innovation Grant) has been successfully implemented at SKRAU, Bikaner during 2018 with the main objective of enhancing entrepreneurship and employability skills in students of agriculture and allied sciences. The project aims at holistic development of the human resources viz. students, faculty, farmers/farm-women, etc. for profitable and sustainable agriculture.

About Webinar

Intellectual Property Right is an exclusive legal right given to the creator for use of creation for a certain period of time in the form of Patent, Copyright, Trademark, Registered design products, Geographical indication, etc. Looking to the significance of IPR in the current scenario of competitive globalized economy, Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India has created a separate Office of the Controller General of Patents, Designs and Trademarks to facilitate creation/innovation and commercialization of intellectual property assets. Several initiatives like Make in India, Start up India, Digital India and Skill India have been taken by the Government of India. Recently, Atal Innovation Mission has been set up by NITI Ayog to promote and support innovation and entrepreneurship for enhancing employment opportunities and livelihood support for the youth of India.

Presently, most of the organizations including CSIR Institutes, ICAR Institutes and Agricultural Universities have an IPR Cell to promote and facilitate patenting of their innovative research outcome. This webinar aims to give insight and create awareness among scientists, researchers, students, entrepreneurs and innovative farmers about Intellectual Property Rights in Agriculture Sector.
