48	North	TEAM01969	Khalsa Vet College Amritsar	Manish Pandey
49	North	TEAM02158	Fodder and Feed Innovators	Prabha Kant Pathak
50	North	TEAM02322	AI4AI	Virender Kadyan
51	North	TEAM02083	CU Innovators	Aniket Yadav
52	North	TEAM02033	Vet-Tech Revolutioners	Sarishti Katwal
53	North	TEAM02176	Green Lantern	Rajat Sharma
54	North	TEAM02253	Lainingthou Sanamahi Team	Th Bidyalakshmi Devi
55	North	TEAM02275	TEAM DAEMON BYTE DIVAS	Dr. Prabha Sharma
56	North	TEAM02036	Veterocrats	Siddhant Tiwari
57	North	TEAM02311	Help-Digitally	Mukesh Rawat
58	North	TEAM02204	AGB LUVAS Team	Ankit Magotra

Congratulations Teams!

Please follow the below guidelines and evaluation criteria next round of evaluation

2. Guidelines for Next Round:

1. Please submit the ID proof of any of the student participated in your group- the proof should mention, he/she should be ongoing/current batch student from the respective university. The team should submit the requisite on or before 29th November 2021. The team who fails to submit the requisite on time will be rejected from the competition.
2. The team should prepare the presentation in the attached format and follow the formatting guidelines as mentioned
3. We request you to prepare and keep the presentation ready by 30th November 2021
4. The team will be called for online presentation for this round from 1st to 7th December 2021 (detailed time slots will be shared by 30th November 2021)
5. For this round, only one chance per team will be given to present their idea before the evaluation team
6. Team can take a reference of Evaluation criteria (annexed) and prepare for the presentation accordingly
7. Please ensure all the team members are present during this round of technical presentation
8. Please note, you cannot change the team members/ leader during the competition.
9. You cannot change the problem statement nor the kind of solution you have submitted during the concept stage
10. Each team will get an online platform link which can used to join the presentation by 30th November 2021
11. Any participating team leader/member (mainly faculty/entrepreneur/innovator should not be a part of evaluation committee constituted at zonal level
12. Organising Committee of KRITAGYA will not use/ discuss/ publish any information/ idea/solution provided by the applicant anywhere on the public platform
13. Strictly use kritagya@icar.gov.in official email for any queries related to the event

3. Evaluation Criteria : Zonal Level Technical Presentation

Criteria	Description	Illustrative weightage
Solution offered to problem statement Novelty / Uniqueness	• To what extent the proposed solution differs from existing solutions and future relevant competitors? • To what extent the differentiation has a commercial potential? • To what extent the proposed technology has potential to create new Intellectual Property?	**15% (5% each)**
Value proposition	**What is the value proposition?** • To what extent the idea offers a potential solution to an unmet need in market/society? • To what extent the product/technology offers import substitution with potentially high economic benefit? • Is the target market large or addressing a niche segment? If yes, to what extent? • If the idea succeeds, to what extent it has potential for disrupting the markets or industry or technology landscape?	**20% (5% each)**
Plan to scale up technology/ Go to market strategy	**What is the Go to Market Strategy ?** • To what extent the market size/ target customers/paying capacity etc. has been addressed? • To what extent the applicant identified target customers for the technology/ product/ service? • To what extent the applicant identified potential business partners?	**15% (5% each)**
Team composition and involvement	• Extent of technical competence of the Leader and team members to take the project to completion? • To what extent the team identified relevant advisors/ mentors? • To what extent the strategy covers the missing technical/ business expertise gaps?	**15% (5% each)**
Risk factors/ Challenges and Strategy to overcome	**To what extent the team is prepared to identify risks / challenges and way forward when the project progression faces any major barrier(s) such as:** • Regulatory • Ethical and Environment/ Health/ Safety • Availability of raw material/key resources • Requirement of unique facility(ies) • Patent rights, technology in-licensing etc.	**15% (3% each)**
Plan and presentation	• Confidence and conviction in presentation. • To what extent project timelines and deliverables reasonable? • To what extent the presentation is nicely structured and convincing • To what extent questions answered during presentation to Jury.	**20% (5% each)**
